AfL	Formative			

For students to better enjoy the process of learning and develop dispositions for lifelong learning, our school is creating a balance between Assessment of Learning (AoL) and Assessment for learning (AfL). We have set aside more time and space to deepen students' learning by only having weighted assessments (WA) and end-of-year (EYE) examinations.
Formative assessments are assessments for learning which are carried out to help students achieve the learning goals and for the teacher to adjust teaching and learning activities. They include on-going practices and strategies used in class such as making explicit learning targets, descriptive feedback and self-and peer assessments. These are done through worksheets and classroom activities.

We will continue to ensure that there is rigour in what our students learn, and at the same time ensure that there is joy in learning.
